THE MISSION OF THE ROCKET FUEL BACKPACK FOOD PROGRAM:

Our mission is to improve the quality of life for Rockwood Area School District students by providing nutritious food to food-insecure children over the weekends. We believe children should be able to focus on their academics and not on where their next meal is coming from.

If you believe that your child could benefit from this program, we encourage you to reach out to Mr. Jon Hale in the elementary school or Mrs. Misty Demchak / Mr. Nicholas Buterbaugh in the high school.
